

# 1. Examples unavailable or “Install” show instead of “Copy”

|           |   |
|-----------|---|
| Question  | <p>When the Pack Installer is aware of a newer pack version or a newer local version of a pack was installed, it fails to recognize the currently available examples correctly. So if "Show examples from installed Packs only" is unchecked, on the Examples Tab, the Action Button shows "Install" instead of "Copy" even when an older or newer local pack version containing these examples is installed:</p>   |
| Condition | <p><b>*.MDK Version: 5.38(a)</b></p>  |
| Answer    | <p>If use MDK version 5.38(a) use the attached updated version 1.3.119.6 of the PackInstaller, which fixes the issues described in this article. Extract the zip archive and place the PackInstaller.exe into the Keil MDK installation folder, usually C:\Keil_v5\UV4\PackInstaller.exe.</p>   <p>PackInstaller_1_3_119_6.zip</p> <p>Refer to <a href="https://developer.arm.com/documentation/ka005531/latest">https://developer.arm.com/documentation/ka005531/latest</a></p> |

# 2. Compiler sample project has many warnings

|           |  |
|-----------|--|
| Questions | In MDK version 5.39 compiler sample project has many warnings but no warning in MDK version 5.38 (a).  |
| Condition | *. MDK Version : 5.39  |
| Answer    | <p>Press “Options for Target...” → Click “C/C++(AC6)” page → Select “AC5-like Warnings” in Warnings→ Press “OK”</p> <p>Or</p> <p>Downgrade MDK version to 5.38(a)</p>  <p>The screenshot shows the 'Options for Target' dialog box in the MDK IDE. The 'C/C++ (AC6)' tab is selected. The 'Warnings' dropdown is set to 'All Warnings'. The 'AC5-like Warnings' option is highlighted in the dropdown list. The 'OK' button is highlighted.</p> |

### 3. Click Megawin.CM0\_DFP.X.X.X.pack to install failed

|           |  |
|-----------|--|
| Questions | Double click “Megawin.CM0_DFP.X.X.X.pack” to install is failing that display “Command Line Error : Unknown Option”<br>  |
| Condition | *. MDK Version : 5.39  |
| Answer    | Press “Pack Installer” → Press “File” → click “Import...”→ Select you want install “Megawin.CM0_DFP.X.X.X.pack” version and click “Open” or Double click “Megawin.CM0_DFP.X.X.X.pack”<br> |
